huuphuocit04@gmail.com
HCM City

SUMMARY

I am a motivated Associate Software Engineer with over a year of full-stack experience, primarily building and optimizing web applications for the Japanese market. I have a solid foundation in Java (Spring Boot) and React/Next.js, with a passion for designing scalable RESTful APIs and intuitive user interfaces. As a proactive learner, I consistently strive for excellence to deliver impactful solutions.

WORK EXPERIENCE

SBPS

January 2025 - March 2025

Software banking post service (SBPS)

Key Responsibilities:

- Main responsibilities:
- Participate in developing functions for SBPS transactions.
- Support in optimizing database queries, contributing to a 2/3 reduction in processing time.
- Modify and improve UX/UI to enhance user experience.

Tuna-jafic

April 2025 - April 2026

Tuna-jafic | Fishing Vessel Information Management System

Key Responsibilities:

- Developed and optimized robust file upload/export features to efficiently handle large datasets.
- Built scalable RESTful APIs using Java (Spring Boot), effectively structuring Entities, DTOs, Repositories, and Services for seamless frontend-backend integration.
- Implemented secure password reset functionality leveraging Amazon Web Services (AWS).
- Created dynamic, responsive user interfaces using Next.js (utilizing SSR/SSG), React Hooks, React Query, and Tailwind CSS.
- Wrote comprehensive unit tests for both backend and frontend components, actively resolving bugs and SonarQube vulnerabilities to maintain high code quality.
- Collaborated closely with the QA team to test, debug, and ensure overall system stability and performance.

EDUCATION

Nov 2023 - Sep 2024

SPRING BOOT 3, SPRING 6 & HIBERNATE FOR BEGINNERS

Udemi

Spring Boot 3: Learn Spring 6, Spring Core, Spring REST, Spring MVC, Spring Security, JPA, Hibernate, MySQL.

2022 - 2025

BTEC FPT COLLEGEN

Software engineer | GPA: 9.0

SKILLS

Backend

Java, Python, MySQL, Oracel, Postgresql. Having knowledge of Redis, gateways, and load balancing, Docker.

FRAMEWORKS

Spring boot, Hibernate, ORM, JPA, JWT

Frontend

NextJS, React, Typescrip, HTML, Tailwind

CERTIFICATIONS

30 - July - 2024

ACADEMIC ENGLISH Level 5

25 - May - 2025

Participation in the FPT Hackathon 2025 Technology Compatition

18 - October - 2025

CODE TOUR PARTICPATION

5 - April - 2026

Foundations of Coding Full-Stack (Microsoft)

COMPETITION

14 - 16 January 2025

GLOBAL HACKATHON 2025 (ARTICLE)
